PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building full-stack web applications using Next.js, React, JavaScript, Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, role-based authorization, CRUD operations, database integration, and responsive UI development. Seeking a Junior Full-Stack Developer opportunity.

TECHNICAL SKILLS

- **Frontend:** Next.js, React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, API Route Handlers, Server Actions
- **Databases:** MongoDB, MongoDB Atlas, Mongoose, MySQL, SQL Server
- **Authentication & State Management:** JWT, Auth.js, Context API, React Hooks, useReducer, localStorage
- **Tools:** Git, GitHub, VS Code, Postman, Vite
- **Additional Skills:** Java, Python, C, C++, NumPy, Pandas, Scikit-learn

DEVELOPMENT PROJECTS

Shopverse — Full-Stack E-Commerce Application

Next.js · React · Node.js · Express.js · MongoDB · Mongoose · JWT

- Developed REST APIs for product, category, tag, user, and order management using Node.js, Express.js, and MongoDB.
- Implemented user registration, login, JWT authentication, password hashing, protected routes, and role-based authorization.
- Integrated the Next.js frontend with backend APIs using Fetch API and managed authentication state with React Context.
- Implemented CRUD operations, MongoDB relationships, product filtering, sorting, pagination, and server-side order total calculation.
- Tested API endpoints and authentication flows using Postman.

Live Demo: https://shopverse-web-six.vercel.app/

GitHub: *Frontend* · *Backend*

TechTalks — Developer Community Platform

Next.js 16 · TypeScript · MongoDB · Mongoose · Auth.js · Tailwind CSS · Zod

- Built a full-stack developer community platform with authentication and GitHub OAuth.
- Implemented developer profiles and post creation, editing, and deletion.
- Developed CRUD functionality using Server Actions and API Route Handlers.
- Integrated MongoDB with Mongoose for persistent data storage.
- Implemented input validation using Zod and type-safe development with TypeScript.

GitHub: https://github.com/zaynabhwayji/Developer-Community

MongoDB REST API

Node.js · Express.js · MongoDB Atlas · Mongoose · REST API · Postman

- Built a RESTful API for product management using Node.js and Express.js.
- Implemented complete CRUD operations for creating, retrieving, updating, and deleting products.
- Integrated MongoDB Atlas with Mongoose for database management.
- Added request validation and error handling.
- Tested and verified API endpoints using Postman.

GitHub: https://github.com/zaynabhwayji/mongooseXnodeJs

Academya — Course Enrollment Platform

Next.js · React · Tailwind CSS · Context API · useReducer · localStorage

- Built a fully client-side course enrollment platform using Next.js App Router.
- Implemented course search, filtering, sorting, and dynamic routing.
- Developed enrollment and progress tracking using Context API and useReducer.
- Implemented persistent application state using localStorage.
- Created a responsive user interface using Tailwind CSS.

GitHub: https://github.com/zaynabhwayji/Academya

Task Manager App

Next.js · React · App Router · Server Components · Client Components · API Route Handlers

- Built a task management application with task creation, editing, and completion management.
- Implemented dynamic routing and API Route Handlers.
- Applied Server Components and Client Components based on application requirements.
- Developed reusable components and loading UI for improved user experience.

GitHub: https://github.com/zaynabhwayji/mini-next-app

ShopReact — E-Commerce Application

React · Vite · React Router · Context API · React Hooks · JavaScript · localStorage

- Built a responsive e-commerce application with product search and category filtering.
- Implemented shopping cart management and client-side routing.
- Used Context API for global state management.
- Implemented persistent cart state using localStorage.

Live Demo: https://zaynabhwayji.github.io/Shop-React/

GitHub: https://github.com/zaynabhwayji/Shop-React

Weather App

React · Vite · JavaScript · OpenWeather API · REST API · React Hooks

- Built a responsive weather application using live data from the OpenWeather API.
- Implemented city search and dynamic weather information display.
- Used React Hooks and reusable components.
- Added error handling for API requests and invalid searches.

GitHub: https://github.com/zaynabhwayji/weather_app_starter

React Context API Mini Shop

React · Context API · Hooks · Vite · JavaScript · localStorage

- Built a mini e-commerce application using React Context API for global state management.
- Implemented cart and theme state using Context API and custom hooks.
- Added quantity management and persistent cart data using localStorage.

EDUCATION

Bachelor's Degree in Computer Science

Beirut Arab University — Faculty of Science

May 2025 | GPA: 3.45

Lebanese Baccalaureate — Sociology & Economics

August 2021 | Mention: Very Good

CERTIFICATIONS & WORKSHOPS

- **Next.js Bootcamp** — TechTalks Community, March 2026
- **Ethical Hacking & Cybersecurity Workshop** — Semicolon Academy, October 2025
- **AI & Cybersecurity Workshop** — Tomohi Platform in collaboration with HounaTech, October 2025
- **IC3 Digital Literacy Certification** — Certiport, February 2025
- **Unlocking the Secrets of Cyber Security Workshop** — Semicolon Academy – BAU, January 2024
- **Soft Skills Workshop** — Career Coaching Specialist Mr. Salim Dabliz, December 2023
